RESOURCE INTERCONNECTION STANDARDS BPM STAKEHOLDER REVIEW SESSIONS

MEETING AGENDA

The California ISO will host three web conferences to review the new Resource Interconnection Standards Business Practice Manual (BPM) proposed through **Proposed Revision Request (PRR) 1695**. Because the proposal introduces a new BPM, the ISO is providing additional stakeholder sessions and an extended comment period to support a thorough review of the proposed language. PRR 1695 and related materials are available through the BPM Change Management site.

PRR status and next steps: PRR 1695 is on hold pending the additional BPM stakeholder sessions. More meetings may be scheduled as needed. Following the sessions, the PRR will return to the initial comment phase so stakeholders can submit feedback on the proposed language.

The October sessions will focus on the financial provisions of the new BPM.

OCTOBER 19 AND 26, 2026 | FINANCIAL TOPICS

- Postings
- Deposits
- Penalties
- Additional financial provisions

The November session will focus on the non-financial provisions of the new BPM.

NOVEMBER 16, 2026 | NON-FINANCIAL TOPICS

- Commercial viability criteria
- General provisions and stakeholder questions
- Provisions requiring clarification
- Additional non-financial provisions

WEB AND AUDIO PARTICIPATION INFORMATION

- Registration is required for each session. You may register in advance or on the day of the meeting.
- After registering, you will receive a confirmation email with personalized Webex access details and a calendar invitation.
- Each participant must register individually. Please do not forward your confirmation email or personalized Webex access details, as they are unique to you.
