

Market Update Meeting Minutes

April 30, 2026¹

Agenda

- 1) Updates and Meeting Minutes Review – Jennie Araj
- 2) Weekly Performance Report – Jennie Araj
- 3) Price Correction Review – Jennie Araj
- 4) General Questions/ Comments – Jennie Araj

Updates

There was an issue with a SIBR patch installed on 4/23/26 that impacted Regulation Up and Down self-schedules in the real-time market. SIBR was not creating RTM self-schedules from A/S IFM awards. This was fixed for HE 17 on 4/29/26.

There is another issue in the real-time market where Gh bids are being capped at \$0 so GHG price in real-time are \$0. This issue impacts RTM from Apr 22-30. The CAISO will not be able to correct prices for this issue.

Bi-Weekly Market Performance Report

The CAISO posted the bi-weekly market performance report for April 8-21, 2026. The maximum day-ahead cleared demand was 30,240 MW and the maximum day-ahead DLAP price was \$132/MWh for the two weeks. The reasons for price excursions in the fifteen-minute and five-minute markets are documented in the report.

Price Correction Review

The CAISO has processed corrections to a specific Apnode called POD_WISTRA_2_WRSSR1-APND due to incorrect mapping of the financial location. This apnode was not reflecting the correct congestion component when the nomogram OMS 19791504 ML_BK80_NG was binding. Also the ISO will make price corrections from Apr 23-29, 2026 to real-time Regulation Up and Down prices due to a SIBR issue that was not creating A/S self-schedules for IFM awards. Price Correction Messages are posted on OASIS under Atlas Reference → Messages → Price Correction Messages.

General Questions

Q: Why were RTD prices high on March 31, 2026 in HE 8-9?

A: Prices were high in RTD due to CAISO renewable resource's output coming in much lower than the VER forecast in the Fifteen-Minute Market. The prices are valid.

¹ The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AMPST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to [CIDI system](#), which includes questions that have proprietary information and that might be commercially sensitive.
